(International News Service)  
MIAMI, Fla., Feb. 16.—Mrs. W. F. Cross of Miami was the heroine of last night's attempt on President-elect Roosevelt's life.  
She was the brave lady who pushed the gun in Giuseppe Zangara's hand out of position so that it failed to pour a deadly barrage into Mr. Roosevelt.  
She was standing next to the wild-eyed Italian.  
"I couldn't see when Mr. Roosevelt started to speak," she said, "because so many people in front of me stood up. I climbed up on one of the benches, too."  
"This man (Zangara) stood up with me. The bench almost collapsed."  
"I looked at him and saw he had a pistol in his hand. He began shooting at the president-elect."  
"I grabbed his hand and pushed it up in the air. Then I called for help. The man next to me grabbed his hand and between us we held it there for he couldn't shoot any more."  
"In a minute more all of those around us were trying to choke him. He went down under a pile of men."  
Mrs. Cross, 48, and weighing about 100 pounds, didn't get frightened or nervous when she saw the weapon.  
"I didn't begin to get nervous at all until after it was all over," she said.  
"I knew he was aiming right at the president. I said to myself in a flash: 'Oh, he's going to kill the president.'"  
"That's why I grabbed his arm."  
The shots were fired so close to Mrs. Cross' face her right cheek was smudged with powder—but she didn't notice it until she arrived home, she said.

MIAMI, Fla., Feb. 16.—The attempted assassination last night of President-elect Franklin D. Roosevelt or of Mayor Anton J. Cermak of Chicago, was savage in its suddenness, and brought a cheering crowd of many thousands of Miami and Floridians to an immediate silence, as soon as comprehension came that a killer was in the audience.  
Mayor Cermak and I were together on the front row of the state and he was reminding of the moment at the Chicago Democratic convention when William G. (By International News Service)  
The eyes of a shocked nation and world turned today to Miami, Fla., where Mayor Anton J. Cermak of Chicago, battled for his life, victim of an anarchist's bullet intended for President-Elect Franklin D. Roosevelt.

Miraculously spared although Cermak and four other persons fell in the fusillade fired by Giuseppe Zangara, an Italian who consecrated himself to the destruction of "the rich and powerful," the president-elect visited Cermak this morning at the hospital and then proceeded northward.

Mr. Roosevelt had scrapped his original program to remain overnight at Miami aboard Vincent Astor's yacht, in order to visit Cermak's bedside after physicians had struggled through the night to save his life.

Condition Dangerous.  
While the mayor's condition was reported as "dangerous," he remained conscious and exchanged light-hearted remarks with the president-elect. But Mrs. Joseph Gill, a bystander who fell in Zangara's volley, was at death's door. A blood transfusion was resorted to in an effort to save her life.

In Washington, announcement was made that 400 Marines will be called out to guard Mr. Roosevelt at the inaugural ceremonies. The secret service guard assigned to the White House was doubled for the protection of President Hoover.

Secret service men ascertained that Zangara was a member of an anarchist gang with headquarters in Paterson, N. J.

Comes now the rabid golfing fan with face a golden glow, he beams as he surveys the greens, barren of ice and snow, for well he knows that snow impedes the playing of his game, and ice prevents a proper stance, and snowdrifts do the same. But snow and ice are on their way to lands of sky and sun, the golfer hopes down in his soul that winter now is done. And as he polishes his clubs, his lips blow out a tune, for golf is golf in any month in April or in June. He sees the time not very far when he can once more play, and skies are blue and life is good, it's forty two today.

### PA NEW OBSERVES

There are letters and letters, but when you get from a president or president-elect a personal note the chances are you'll value it above all others. That's exactly what Robert Bishop, New Wilmington R. D. 1, is doing with his letter from President-elect Roosevelt. Bishop, while in a navy hospital at Bremerton, Wash., cartooned Mr. Roosevelt as he toured the west. Roosevelt saw the cartoon and sent a letter to Bishop expressing his thanks. Now Bishop is home for a rest.

# ROUND-UP OF ANARCHISTS IN PROSPECT

## Secret Service Men In Action

Anarchist's Attempt To Kill President-Elect Brings Round-up

## EASTERN SEABOARD SCENE OF ACTION

(International News Service)  
WASHINGTON, Feb. 16.—A general roundup of anarchists along the Atlantic Seaboard by the United States Secret Service was in prospect today, as the result of the attempt upon the life of President-elect Roosevelt at Miami last night by Giuseppe Zangara.

Zangara has been identified as the member of an anarchist gang at Paterson, N. J., W. H. Moran, chief of the Secret Service revealed today, after a telephone conversation with his operatives at the Florida Spa.

## Is Anarchist

"Zangara has definitely identified himself as an anarchist," Moran pointed out. "His home and his associations are in the east near New York City. The eastern headquarters for the anarchist group is at Paterson, so it is logical to assume that he is affiliated with that ilk of agitators."

Moran would discuss no other details of the Miami shooting. It was evident, however, that Moran already has dispatched operatives to Paterson and other eastern cities to delve deep into the details and arrangements for Zangara's dastardly act.

By it, the board of school directors is relieved of the necessity of holding an institute or paying for speakers for substitute plans.

rendezvous here said most of the loot was recovered.

The dead man was William Ferguson, Philadelphia.

Two members of the gang met Samuel Horst, cashier of the bank as he returned to his home in Ambler last night with his family.

They remained at the Horst home chatting with the victims about their plans, until shortly before 6 o'clock this morning. Then they bundled the cashier off to the bank.

Samuel R. Health, night watchman, accosted the gunmen as they entered the institution. He was beaten unconscious.

Vault Cleaned Out  
At 6:30 the time lock on the vault clicked and the doors were opened. The bandits cleaned out all the currency stored in sacks and then emptied the night depository.

They abandoned Horst and the watchman and fled for their companions at the house.

Horst called state police at Doylestown. A special detail sped to the bank. Other squads came from Reading to join city and county police.

Gun Battle Occurs  
Alfred Gorton, a clerk at the Ambler postoffice, noticed the license number on the bandit machine as it sped away from the bank.

Through a check of the license plates, detectives learned William Ferguson, to whom the registration plates were issued, resided at an apartment at 316 Salinas street, Philadelphia. They sped to the apartment.

The bandits refused to surrender. Lieutenant Clark and his men, after a final warning opened fire. Ferguson fell, shot through the head.

Three other men who gave their names as Barney Wacht, Sam Mitchell and James Magee were arrested.

## Dr. Strath-Gordon Speaks Here Sunday

Dr. A. E. Strath-Gordon of Huntly, Scotland, founder and president of the Atlantean Research Society will lecture in the First Christian Church Sunday afternoon February 19 it was announced today lecturing on "The Beginning of Things."

Dr. Strath-Gordon is a scientist and a lecturer. In his younger days he was sent out into the Hudson Bay Country by the British Government where he ministered to the Cree Indians. As an astronomer he did much work with the late Prof. Lowell and has done considerable work in the field of archaeology.

From Hindu pundits and from Cree Indian chiefs he learned their theories of the beginning of the

world and to these he has added the Biblical history. Out of his wealth of information he has developed a lecture which is both scientific and religious, a lecture which goes into the scientific truth of the Book of Genesis, how the modern version has been so perverted that it gives the atheist his opportunity to dispute the Bible.

His lecture is enlightening and instructive. It deals with subjects that have been distorted through the years and it develops a scientific and satisfying proof of the words of wisdom contained in the old and New Testaments. The public is invited to his lecture at 2:30 p. m. Sunday afternoon. A silver offering will be taken.

## IT WAS EVER THUS

SINCE the war the literary market place has swarmed with prophets of doom. At every turn there is some modern Jeremiah telling the world how civilization is crumbling, Pollyanna is in eclipse.

The doomsday boys are always with us. While the world was fighting the world war there were those who saw in that terrible conflict the destruction of human culture and the end of civilization. Reversion of the human race to savagery was even held up as a possible result of the war.

Cessation of hostilities was followed by a world economic collapse and the dismal verdict that the capitalistic system and the machine had failed. Then the United States was thrust into an era of unprecedented prosperity and the moralists shuddered at the demoralizing effect too much money and too many of the material things of life were having upon young America.

After that, the deluge of depression. And again an old familiar menace under a new name—technocracy. Now it is the high standard of living that is lost for all time, and a wave of immorality due to too little money and too few of the material things of life.

When will these viewers-with-alarm view with pleasure?

## NOT LEGITIMATE TAX EXPENSE

In the midst of legislative problems of grave importance to the welfare of the people, the house stops to discuss a bill appropriating \$2,500 to take members of the legislature, the governor and various state attaches to the inauguration of Franklin D. Roosevelt March 4.

The amount of money is comparatively small, as viewed in the light of other state expenditures. But it should be opposed on principle.

At a time when taxpayers are crying for economy in government, it is unthinkable that they should be asked to pay for what amounts to a junket for members of the legislature. If the members want to go to the inauguration let them pay their own way.

The house should not pass the measure, and if it does, Gov. Pinchot should not sign it.

And at the same time the state legislature could shut down on use of a lot of taxpayers money for attendance at conventions of many sorts for county and state officers without any disadvantage to the public.

## THE GROWTH OF BARTER

Barter or the trading of one kind of product for another is as old as civilization, antedating the use of money and coming into use again at various times when currency systems partially break down. It is best adapted to pastoral peoples and rural communities for it is largely a system of trading food for food or food for clothing or either of these commodities for fundamental service.

As society moves towards cities and as civilization becomes more and more marked off into trades and professions, and specialized jobs, barter becomes less and less practicable. Lawyers don't want to take their fees in potatoes, preachers won't willingly marry couples for bushels of oats, and the barber doesn't want paid in cabbage or carrots. Such commodities are cumbersome to handle, lack a guarantee value and a ready market, and lifting them around is hard on the back.

So it is on the heels of a partial breakdown of the money system that we see milk traded for potatoes, butter for meat, lamb for pork, and beans for coffee, honey for wearing apparel, apples for medical services, and smoked ham for a subscription to the family newspaper. And it is not to be scoffed at entirely, although it is impracticable to use very far beyond strictly personal dealings.

Instances occur where unemployed men work out part or all of their debts to merchants or physicians. In one such case, a doctor enjoys a fine new driveway, which an unemployed husband and father built for him out of bricks that had been thrown away by the township supervisors.

## TRAFFIC REGULATION FOR NATION

While uniform traffic laws for the states has been advocated for some time decided progress in the campaign has only been noted in the past half decade. Organization of the National Conference of Street and Highway Safety in 1924, resulted in surveys and the production of model regulations but it was some time before the states began to adopt the same. In fact, until not long ago, a drivers' license system with examination of drivers, one of the stressed items, was insisted upon only by California and the North Atlantic States.

At the recent meeting of the conference, the prospects for complete uniformity in motor-vehicle regulation throughout the nation were reported, for the first time, as encouraging. With 43 state legislatures meeting this year and 25 giving consideration to the subject, this year is expected to advance the cause as has no other.

Though many of the states have problems of relief and budget-balancing which may interfere with any traffic regulation to entail expense, the very conditions are cited as an aid insofar as a part of the program is concerned. Relief money is being spent upon the highways, straightening curves and widening arteries and these activities are within the suggested national code. Right now 34 states have made the code or parts of it state law.

What will interest many for its proofs of benefits to society is the fact that the states which have adopted the provisions relating to the licensing of drivers have shown a 31 per cent differential in their favor in proportion of accidents as compared to states which have no laws governing drivers' licenses. With the co-operation of the National Safety Council, the National Automobile Chamber of Commerce and other organizations a quiet movement for unification of the laws to bring safer conditions throughout the nation and avoid confusion and danger for those who travel from one state to another, is being carried on. That complete uniformity now seems within sight is welcome news.

A wise man knows the value of silence when a child begins to cross-examine him.

It takes all kinds of people to make a world, so almost anyone should be able to fit in somewhere.

Something must be done about blind crossings. Simple expediency urges the conservation of taxpayers.

### IF YOU DON'T KNOW PEOPLE.

You can know the distance to the sun, the origin of the universe, the names of the stars—

You can know the name of the man who killed the Grand Duke at Serajevo—

You can know calculus and etymology and genetics—

You can know what makes the green leaf turn gold and how caterpillars turn into butterflies—

But if you don't know people, just how much DO you know?

If you know the name of every president—

And what Talleyrand, Copernicus, Areline, Spinoza, Lavoisier and Hokusai did in their spare time—

And how Cortez conquered Mexico—

And who invented the safety pin—

And what the Code of Hammurabi was—

And don't know what's in the human heart, do you really know anything worth while?

You know how bees organize the hive, and—

How to make one dollar turn into 10, and—

The speed of light, and—

The significance of the Law of Diminishing Returns, but—

If you don't know the common wisdom that teaches you how to get along with other human beings, of what use are all these scraps of knowledge?

If you do know what people want—

If you know what they are like, inside—

If you know how to dry their tears—

If you know how to rouse them, stir them, lift them above their common selves—

If you know how to make even one human being in this world happy—

If you know that people are the most important objects in all this world—

Then you know enough—

Then you are wise—

Then you are doing your share.

### THE THINGS YOU DO

Isn't it true that you do not make enough demands on yourself?

You don't sponsor for yourself the difficult and disagreeable things.

You avoid the things you dislike and the things that require mental or physical effort.

You have adopted a line of thought that falls back on "it takes too much out of me."

Perhaps you have associated with those who made such an effort to avoid anything that required hard, and long continued, apparently unsuccessful efforts that you have let it prove a detriment to you.

With very little effort you can imagine yourself as being greatly exhausted by duties that others would consider light and easy.

You don't know the meaning of being without bread while you walk the streets looking for work.

Your family and kind friends would not see you suffer for anything necessary to your comfort, as you know.

But your pride ought to get up enough spunk to do a good stiff job and do it thoroughly and continuously until you get what you are after or at least have combed fine to get it.

## Sandino's Promise Of Peace Arouses Varying Emotions

Citizens Of United States Differ As To Value Of Services Of Marines In Opposing Activities Of Rebel Forces In Nicaragua

Citizens of this country find it difficult to agree as to the significance of Augusto Sandino's declaration of peace with the present administration in Nicaragua. Those who have disagreed with the policy of employing American Marines for the establishment of law and order hold that withdrawal of Marines was a signal for co-operation of Nicaraguan factions. Others give much credit to Mr. Stimson for his country on a representative of this country on a Nicaragua mission before he became Secretary of State. Comments assign to Sandino the role of both patriot and dangerous rebel.

"Sandino has had a long career as a trouble maker," recalls the OAKLAND TRIBUNE, which quotes him as saying that now with the American Marines out of his country, there is no occasion for him to lead his forces, and that he asks for nothing save the chance to aid the government. The Tribune adds: "If he does this, much will be forgiven him in Nicaragua though the inferences he makes are not borne out in fact. The Marines have to go to Nicaragua because of the bandit raids; they had to stay there, again at the request of the Government, because of Sandino's activities. After they had preserved order and aided in the training of a state constabulary, they departed. Nicaragua wondered what Sandino would do. His answer is a welcome surprise."

"It will be interesting," thinks the NASHVILLE BANNER, "to see if Sandino does go now into constructive activities in his country. For many years he has posed as the undying enemy of 'Yankee imperialism' in Nicaragua in particular and Latin American in general. With the aid of bands of men who were almost fanatically attached to him, Sandino has caused a great deal of trouble and has forced to cap him and destroy his

## Brother Sees Sisters After Being Apart For Nearly Quarter Century

Girls Of Portersville Go To Johnstown To See Long Lost Brother

Tears of joy flooded the eyes of two sisters and a brother Tuesday when Fate, who had kept them apart for 24 years, relented and allowed them to meet again.

The happy reunion took place in Johnstown, where the two adopted daughters of Mr. and Mrs. C. A. Forsberg, prominent Portersville residents, rushed after receiving a message from their long lost and only brother, Omar O'Brien.

Story of the lives of the three young people reads like a chapter from a story book.

They were born in Kansas—all three of them. Omar was 11 years old when his mother had to leave him behind and take the two girls East. Helen, the youngest, was just seven months old at the time and more than two years of age.

They went to Pittsburgh, where their mother died of pneumonia a short number of years later.

When Helen was six and little Nellie eight years old they were adopted by Mr. and Mrs. Forsberg. Although knowing that the girls had a brother, the Forsbergs had no idea of where the last resided. Believing it to be an impossible task to locate the boy, they gave up all hope of ever seeing him.

In the meantime little Omar was having a tough time getting along. He had no one to depend on but himself. Although at an age when most boys are in their early grades of school, Omar was working and supporting himself. He was able to get four years of schooling, but the job of feeding and clothing himself was none too easy, so he gave up the education part of the game.

He made a success of things and today is a respected sergeant of the Johnstown police force. He married and has raised a fine family.

Having often yearned to see his sisters, Nellie and Helen, the young man started the search 15 years ago. He got in touch with everyone who had known his mother, endeavoring to find where she had resided after leaving Kansas for the East. He wrote to various mission persons, bureaus, to police organizations—but to no avail.

Although discouraged many times, O'Brien kept up the search. A few days ago he had the story broadcast from a radio station and was rewarded by a letter from a Mrs. Hoyt in Pittsburgh. Mrs. Hoyt stated that she believed the two little girls had been adopted by Mr. and Mrs. Forsberg of Portersville.

Sergeant O'Brien immediately posted a letter to the Forsbergs. The letter, received on Monday, delighted the Portersville couple and their adopted daughter. They answered it right away, giving the welcome news that the brother's 15-year search was ended.

On Tuesday Helen and Nellie were so excited at the prospect of a reunion with their brother that they decided not to wait for the letter to reach Johnstown. With their adopted parents they hurried there and a few minutes after the letter arrived. The brother and his family were just leaving for New Castle. The reunion will long be remembered by all who were present.

The Johnstown man and his family will be guests at the Forsberg home next Sunday.

## Purchase Of 150 Books Authorized

Board Acts To Provide Needed Text Books At Senior High School

Some discussion arose Wednesday night in the meeting of the New Castle school board relative to the method of adoption of text books for the schools here. Under the law no text books can be purchased unless they have been adopted between April 1 and August 1 unless the books are supplemental.

A request for 150 English text books for use in the senior high school was received and because of the increased enrollment in the high school it was stated by Dr. C. C. Green, superintendent, that the books were badly needed. A new text book was recommended.

A. C. Hyde raised the point that the board had not adopted the text book and could not purchase it. It was argued that the book was supplemental which permitted its purchase. On vote Hyde and McIlvenny voted against the purchase with the other members voting aye. The purchase was authorized.

## Soon To Discuss School Budget

Preliminary Report Is Made To School Board Last Night

NO TAX CUT IS SEEN FOR YEAR

Attorney Roy W. Hazen, a school director and chairman of the budget committee made a preliminary report to the school board Wednesday night at its regular monthly meeting in the Administration building on East street.

Mr. Hazen stated that the committee had received the budget estimates of the various buildings and had also received a statistical report showing the schedule of each teacher, the number of pupils taught, and the number of teachers and pupils in each building.

Two things are apparent as the budget committee begins its work. One is that there can be no chance of the replacement of the department removed a year ago, and the second is that there is apparently no hope of any reduction in the tax millage which is sixteen mills.

The action of the budget committee here will depend in some measure upon the action of the general assembly. For this reason the compiling of the local school budget will be somewhat delayed.

# Protest Retention Of Senior High Students At Washington High

Protesting against the keeping of senior high school students in the George Washington junior high school instead of putting them in the senior high school building on Lincoln avenue, James B. Foster, D. G. Harris and W. H. Shipley appeared before the New Castle school board on Wednesday night. Mr. Foster acted as the spokesman.

He said that there were 244 post graduate students in the senior high school, and 130 rural students. The presence of these students he said made it impossible for the senior high class in the George Washington school to be admitted and they were thus denied the contacts of the senior high school. Under questioning he admitted that the teaching in the George Washington school was as effective as that of the senior high school but said that the youngsters were disappointed in not being sent down there.

**Says Post Graduates Impede**

The post graduate students and the rural tuition students impede the regular senior high classes, Mr. Foster said and he argued that the regular students should be given preference and the post graduates and rural students given what is

left. The board explained that the rural students tuition amounted to nearly ten thousand dollars, that the school system was forced to take them and that if they were moved out there would be a loss in revenue.

Mr. Foster stated that the complaint of the parents of the George Washington junior high school students was not directed so much against the present semester as it was for the coming fall semester. The board and Dr. C. C. Green stated that it was not the intention to hold the George Washington students there for all of their course but to admit them to the senior high school as soon as possible.

The reason for holding a group of the tenth year students in the George Washington junior school, it was explained to the group, is the fact that the senior high school now has 2107 students in a building that was presumed to be at its capacity limit at 2000. To pile in the George Washington students would mean overcrowding and crowding to the consequent disadvantage of the entire school. It is hoped that by the next semester some other arrangement can be worked out.

ing him on the condition of Mayor Cermak and four other persons who were shot last night when an effort was made to assassinate Roosevelt at Miami. The message said:

"Have just visited the hospital to see the patients. The mayor had a fair night, as did Mrs. Gill. The other three are on rapid road to recovery."

President Hoover requested the information in a wire to Roosevelt last night congratulating him on his escape.

The President-elect said when he saw Cermak this morning the mayor was more disturbed over Chicago affairs than he was over his own condition.

Roosevelt quoted Cermak as saying:

"I intend to have a talk with you about the school teacher situation in Chicago."

Roosevelt continued:

"It seemed to be the one thing that was troubling him. Weak as he was, he went on to describe the school teacher situation."

HENRY KING PRODUCTION

about 15 feet from the president-elect, drew a gun and blazed away.

Mrs. F. A. Cross of Miami was standing next to the assailant.

**Woman Grabs Gun.**

As his gun roared, she grabbed his wrist and forced the weapon upward. Four shots went over the heads of those seated in the first two rows of the stand. The quick action of Mrs. Cross undoubtedly saved Mr. Roosevelt from the leaden hail.

The second shot from Zangara's gun struck Cermak in the back. L. L. Lee, city manager of Miami, standing beside him, clutched one arm and W. W. Wood, holding the microphone into which the president-elect spoke, grabbed the other.

Mr. Roosevelt reached down and helped the wounded Chicago mayor into his car. With siren screaming it raced away for the hospital. The president-elect sat cradling Cermak's head in his lap and felt his pulse from time to time.

Mrs. Gill, sitting in the stand, collapsed with a bullet in the abdomen. Sinnott, the detective, was standing behind the Roosevelt automobile and suffered a wound over the left eye. Miss Kruike, standing in front of the stand, was shot in the hand and Caldwell, also in the front rank of those pressed close to the stand, suffered a head wound.

**Beat Assailant.**

While Zangara's gun was still smoking, those standing close to him fell upon him and pummeled him savagely.

Cries of "kill him," "lynch him" broke from the crowd as it surged toward the spot.

A Miami policeman forced his way to the would-be assassin's side and clubbed him.

Secret service men and police grabbed Zangara from a group of infuriated spectators and threw him on the trunk rack of another automobile containing Vincent Astor and Kermit Roosevelt, who had accompanied the president-elect on the cruise.

The president-elect, who remained calm through the incident, waited at the hospital to learn Cermak's condition. When informed the mayor's wound was serious, he cancelled plans to leave for the north and returned to the Astor yacht to spend the night.

At the county jail, the president-elect's assailant, a short, sullen-looking person with bushy hair, told police he tried to kill Mr. Roosevelt because of "constant torment" following a stomach operation.

**Purchased Gun in Italy.**

Speaking in Italian through an interpreter, Zangara told police he had purchased a gun ten years ago to kill King Victor Emanuel of Italy.

"I have always hated the rich and powerful," he said. "When I read in a Miami newspaper two days ago the president-elect was coming to Miami by boat I determined to kill him. I hoped I would have better luck than I had ten years ago when, in Italy, I bought a pistol to kill King Emanuel."

"By a queer trick of fate the same thing that foiled me at that time was the same thing that prevented me tonight from killing Mr. Roosevelt—there was too dense a crowd around and I couldn't shoot properly."

"I got to the park early so as to be as close to the stand as possible. I sat there waiting and my stomach kept aching me more than ever. I kept thinking that if the crowd didn't get too thick around me I wouldn't fall like I did ten years ago."

**Gun Shaky.**

"Finally, some of the people got tired of standing and my big chance came. When they sat down I stood up on a bench and pointed the gun at Mr. Roosevelt."

"Somebody was pushing against the bench and made it wobble. The gun was shaking in my hand but I pulled the trigger anyhow. I don't remember how many times."

"I don't know whether I shot Mr. Roosevelt or not but I want to make it clear I do not hate him personally. I hate all presidents, no matter where they come from, just like I hate all officials and everybody who is rich."

Zangara, who is 33, told police he was born in Calabria, Italy. He worked in a brick factory in Italy, he said, and was burned in a fire there. As proof, he exhibited a large scar on his body.

After almost two hours of questioning, secret service officials and police had apparently decided Vincent, picked up on suspicion, had nothing to do with the attempted assassination. He was still being held, however, with George Brodnax of the secret service leading the investigation.

**Grill Assailant**

At the moment when the president-elect was casting aside all official duties to be at the bedside of the gravely wounded Chicago mayor, Giuseppe Zangara, an unemployed brick mason who shocked the world by firing five bullets at the nation's newly-elected chief ex-

cutive, remained in the Miami county jail.

There he was subjected to an incessant grilling by police and secret service men in an effort to determine whether he was the tool or leader of an anarchistic gang, or a madman seeking to protest against fancied wrongs by attempted assassination.

The president-elect arrived at the hospital to find medical science pitted in a desperate attempt to undo the damage wrought by Zangara when he split the air with his pistol shots a few moments after Mr. Roosevelt had completed a farewell speech before 15,000 Floridians in Bay Front Park.

The condition of Mrs. Joseph Gill, wife of a public utility concern official who was one of the bystanders to fall in Zangara's wild fusillade, was even more critical than that of Mayor Cermak.

She was undergoing a blood transfusion just at the time the president-elect, grim-faced and tight-lipped, stepped out of his automobile and entered the hospital.

# Roosevelt Relates His Recollections Of Miami Episode

By GEORGE E. DURNO  
International News Service Staff Correspondent

**EN ROUTE WITH PRESIDENT-ELECT ROOSEVELT, Feb. 16.—President-elect Franklin D. Roosevelt today related his own eye-witness account of the attempt made to assassinate him last night in Bay Front park at Miami.**

Speeding northward by special train, the president-elect gave a graphic picture of the confusion that prevailed when a radical fanatic felled five spectators in the crowd with bullets intended for him. Roosevelt revealed that for three blocks, traveling in a motor car, he failed to detect a pulse beat in the wrist of Mayor Anton J. Cermak, of Chicago, believing him dead. Here is Roosevelt's story:

**Roosevelt's Story**

"I have heard so many accounts myself that I have been trying to think what really happened as I saw it."

"After I had finished speaking some one from the talking picture people climbed on the back of the car and said, 'you must repeat the speech for us.' I said I would not. He said, 'we have come 1,000 miles for this.' I said I am very sorry but I can't do it."

"Having said that I slid off the back of the car into my seat."

"Just then Mayor Cermak came forward and I talked with him about Chicago in general. Then he moved off behind the car. Bob Clark (one of the secret service men) was standing right by him. As he moved away a man came forward with a long telegram and started telling me what it contained. While he was talking I leaned forward."

"Just then I heard what I thought was a firecracker, then several more. The man talking with me pulled back and the chauffeur started the car."

**Saw Cermak Doubled Up.**

"I looked around and saw Mayor Cermak doubled up, with Mrs. Gill collapsing. I told the chauffeur to stop. He did, about 15 feet from where we started. The secret service men shouted to him, 'get out of the crowd.' The chauffeur started again and I stopped him again. This time at the corner of the bandstand."

"Looking back I saw Cermak being carried away, and saw him in our car. He was alive but I was afraid he wouldn't last. I got my hand on his pulse and found none. He was on the seat with me and I had my left arm around him. He slumped forward. A detective from Miami, standing on the running

board on that side of the car was leaning over him. He said after we had gone a couple of blocks he was afraid Cermak would not last.

"I, too, was fearful. Just then Cermak straightened up and I got his pulse. That was surprising. For three blocks I actually believe his heart had stopped."

"I held him all the way to the hospital, and his pulse constantly improved. It seemed like 25 miles to the hospital. I talked to him all the way. I remember I said, 'Tony don't move—keep quiet—it won't hurt if you keep quiet and remain perfectly still.'"

"I found that a bullet—the one probably that hit Cermak—grazed the top of Clark's hand. His hand was all bloody and scratched."

"You know I knew Bill Sinnott. I kidded him at the hospital this morning and told him they couldn't hurt him with a bullet in the head. It would just bounce off. I left orders for them to starve him and take off at least 20 pounds."

## Besiege Red Cross For New Garments

**Distribution Wednesday Establishes High Spot Since Work Was Started**

Offices of the Lawrence County Chapter, American Red Cross, were thronged all day Wednesday by local residents, seeking clothing.

The office is closed on Monday and Tuesday to enable the volunteer workers to catch up with their records. This accounted in a measure for the large crowd which filled the place yesterday, when it was almost impossible to get through the halls.

Chairman Harry Alexander stated this morning that a total of 787 garments was given out yesterday, the largest of any one day since distribution of clothing was started.

The insurance companies contested the claims on the grounds of objections to the inventories of goods burned when plaintiff's house was destroyed by fire.

## Score Practice Here Of Towing Cars Off Street

In "The Daily Grind", the organ of Columbus Council No. 1, United Commercial Travelers, there appears a story about New Castle. The caption and story from "The Daily Grind" follows:

### "COMMERCIAL TRAVELERS ARE PASSING UP NEW CASTLE, PENNA."

"Here's the reason:—If you leave your car parked after 12 p. m. on the streets of New Castle it is towed by the order of the Police Dept. to a garage and the owner is obliged to pay \$2.00 to get the car out. The commercial travelers are now cutting this town off their list much to the detriment of the hotels and business houses. Pass this message along to your fellow traveler, that he may not be a victim."

Several years ago New Castle council adopted an ordinance which prohibited the parking of automobiles between 1 a. m. and 6 a. m. in any streets in the city, except by special permit from the police.

The city streets sweeper operates twice each week. Tuesday midnight to 6 a. m. Wednesday; and from Friday midnight until six a. m. Saturday.

According to street department officials when an unlocked car occupies the path of the sweeper it is moved so the sweeper can operate in its current path.

If the car is locked and the owner cannot be found the police department is notified and in turn the police department authorizes the towing of the auto to a garage.

Before the car is released a charge is levied.

## CEASE CALLING PYMATUNING MEN

Reservoir's Clearing Work Ends February 25; Pick Last Delegation

Next week's Pymatuning dam party from Lawrence county will be the last to share in the relief work which Pennsylvania has afforded jobless men of the district for more than a year, a letter from F. C. Borst, registrar of workmen at the reservoir site told today. It will also be the Butler and Beaver groups last.

Just as R. L. Meerman's, superintendent of the New Castle branch of the states' cooperative employment bureau, chose the last man for next week's delegation, the message carrying news of the work interruption arrived.

The brief message of Mr. Borst read:

"The work of clearing at the Pymatuning reservoir site is rapidly approaching completion and the need for men will cease on Saturday February 25.

"Your last shipment of men from Lawrence, Butler and Beaver counties will be on Monday, Tuesday and Wednesday, February 20, 21 and 22.

"I know that this information is not going to be pleasing to you, but

it has become our sad duty to put forth this order."

After announcing the contents, Meerman declared "the Pymatuning applicants need apply no more." Like Registrar Borst, he regrets the fact that no more jobs can be provided. However, circumstances in the end decide this.

It was learned that only about two weeks more of clearing at the reservoir tract remained to be done.

The Y office will continue to distribute rural road jobs when District Superintendent H. W. Lightner calls for men.

# Don't Deceive Yourself about a COLD!

A Cold is Nothing to Take Lightly and Nothing to Treat Lightly! A Cold is an Internal Infection Calling for Specific Internal Medication!

A cold is nothing to trifle with. You can't tell where it will end. Many a case of Influenza has been preceded by a "slight" cold.

A cold calls for a COLD remedy. Preparations good for half a dozen things besides colds can be equally effective for colds. Many of these preparations actually make a cold more difficult of relief because they are constipating and also make the system acid.

A cold also calls for internal medication. For, a cold is an internal infection. Local or outside applications only allay a few of the symptoms and do not reach the real seat of the trouble.

**Play Safe!**  
At the first sign of a cold you can do nothing wiser than take Grove's Laxative Bromo Quinine.

Grove's Laxative Bromo Quinine deals with a cold decisively because it does the four things necessary. First of all, it opens the bowels. Second, it kills the cold germs and fever in the system. Third, it relieves the headache

and grippy feeling. Fourth, it tones the entire system and fortifies against further attack.

This is the treatment you want and anything less is only compromising with a cold.

**Harmless!**

Effective as it is, Grove's Laxative Bromo Quinine is safe for young and old to take. It contains nothing harmful and may be taken with impunity whether you stay indoors or go out. For more than forty years it has been the standard cold and gripe tablet of the world, the formula keeping pace with Modern Medicine. Grove's Laxative Bromo Quinine now comes in two sizes—30c and 50c. Get yourself a package today and keep it handy all winter as your "safety first" measure. Ask for it by the full name and look for the initials L B Q stamped on every tablet.

**NOTE:** During Epidemics a tablet or two of Grove's Laxative Bromo Quinine every morning and night will do much to fortify your system against infection.

## NOW! EASE A SORE THROAT INSTANTLY

Feel Rawness, Irritation, Go At Once

These Pictures Tell You What To Do

Remember Only Medicine Helps A Sore Throat

Modern medical science now throws an entirely new light on sore throat. A way that eases the pain, rawness and irritation in as little as two or three minutes.

Results are among the most extraordinary in medical science. On doctors' advice, millions are following this way... discarding old-time "washes" and "antiseptics." For it has been found that only medicine can help a sore throat.

Simple To Do. All you do is crush and dissolve three BAYER Aspirin Tablets in half a glass of water. Gargle with it twice—as pictured above. If you have any indication of a cold—before gargling take 2 Bayer Aspirin Tablets with a full glass of water. This is to combat any signs of cold that have gone into your system. Keep taking if cold has a "hold." For genuine Bayer Aspirin will not harm you. Your doctor will tell you, it does not depress the heart. Get a box of 12 or a bottle of 24 or 100 at any drug store.

Reduces Infection, Eases Pain Instantly. Gargling with Bayer Aspirin will do three things: Relieve soreness at once. Allay inflammation. AND—reduce infection; which is the important thing in fighting a sore throat.

It requires medicine—like BAYER ASPIRIN—to do these things! That is why throat specialists throughout America are prescribing this BAYER gargle in place of old-time ways. Results are quick and amazing.

Be careful, however, that you get real BAYER Aspirin Tablets for this purpose. For they dissolve completely enough to gargle without leaving irritating particles. Watch this when you buy.

Ask your druggist about the recent price reduction on the 100 tablet size Bayer Aspirin.

NO TABLETS ARE GENUINE BAYER ASPIRIN WITHOUT THIS CROSS

## McClure Chosen As Chairman Of Utility Probers

Senate Utility Investigating Committee Has Re-organized

(International News Service) HARRISBURG, Feb. 16.—The senate utility investigating committee reorganized Wednesday by selecting Senator John J. McClure, Delaware, as chairman. The body has been without a chairman since the term of Senator W. S. Rial, Westmoreland, expired on December 1.

Senator McClure who introduced a new bill, designed for more rigid control of the utilities, served as chairman of a similar committee in the 1931 session of the legislature. At that time he sponsored a series of bills for utility control which passed the senate and was killed in the house.

Committee members and counsel will study the McClure bill during the week-end and make recommendations concerning it at a meeting next Monday afternoon.

Senator Warren H. Roberts, Northampton, a Democrat was re-elected today as secretary of the committee.

The committee will retain Oliver K. Eaton, Pittsburgh, as chief of counsel, and also J. Julius Levy, Scranton, Prof. John G. Hervey, Philadelphia, and J. Cullen Ganey, assistants.

After a pleasant visit of two weeks at the home of her uncle and aunt, Mr. and Mrs. A. H. Robb, of Gardner, Miss Leona Croup went back to Pittsburgh, where she has a position as a nurse at the South Side hospital.

The East New Castle Grange met on Tuesday night at the home of Mr. and Mrs. August Arnold, of the old Pittsburgh road. ## PAIN DEADENED CHEST COLDS LOOSENED WITHOUT DRUGS

Get quick relief from neuralgia, pain, sciatica, neuritis, rheumatic pain, lame back, stiff neck, headache, strains and chest colds by rubbing plenty of Baume Bengue (pronounced Ben-Gay) on the spot. It doesn't blister or stain. Rub it in till it sinks down and soothes the pain or breaks up the chest cold. Take no drugs, for this drug that is powerful enough to "dead" pain or loosen a chest cold may not be good for you.

But beware of imitations. Ask your druggist for Baume Bengue by name (called "Ben-Gay" in English). There are many analgesic balms, mostly cheap imitations of Ben-Gay made out of synthetic drugs. That is why they are cheap. That is also why they are ineffective. Insist on Ben-Gay and you will get real results.

SHE WASHED 334 PIECES WITH ONE BOX OF RINSO

Read what Mrs. Calvin Horn says:

"Rinso, in my opinion, is the perfect laundry soap. It has proved to me that a soap can be both economical and efficient. It gets the clothes snowy-white—quickly, easily and safely. I kept a list of the work I did with one big box. First I did 334 pieces of wash for my family of three. Then I washed my dishes, sinks and floors 4 times each. Do you wonder I'm enthusiastic about Rinso?"

Mrs. Calvin P. Horn, Portland, Ore.

SO EASY ON YOUR HANDS—SO SAFE FOR THE CLOTHES

Look at your hands after an easy Rinso washing. Still smooth—still white and pretty. No danger of "washtub hands" when you use Rinso! And Rinso is wonderfully safe for the clothes, too. In the midst of the sadness of the occurrence, the whole country must feel relief that Mr. Roosevelt was spared."

"It is most fortunate the president-elect escaped harm," John N. Garner, speaker of the house and vice president-elect, declared today. "It is hard to understand the type of mind that would seek to kill an innocent man—a man who has done harm to no one."

## Steel Business Is Slowly Picking Up

(International News Service)

NEW YORK, Feb. 16.—The most definite improvement in steel business apart from automobile requirements thus far in the new year has developed within the past week, and ingot output for the country has advanced to an average of 20 per cent, the highest level of the year, the Iron Age review points out.

The principal factor in the upturn has been a loosening up of automobile tonnage with the release of steel for 10,000 cars by the Ford Motor company, and the settlement of the strike at the body plant of the Hudson Motor Car company.

Best in Month. Chicago mills have had the best

week's business in several months, while inquiries have also gained, foreshadowing an early increase in ingot production, which remains this week at 18 per cent. Orders have gained moderately at Pittsburgh and Cleveland, and production has increased a point to 16 per cent at Pittsburgh and three points to 38 per cent at Cleveland. The valley district is maintaining last week's rate of 20 per cent, while Wheeling output of raw steel is fully 35 per cent, being sustained largely by tinplate requirements which are responsible for the operation of one Bessemer plant in that district at about 70 per cent.

## Tax On Utilities Favored By Board

School Board Passes Resolution At Meeting On Wednesday Night

By a resolution which was adopted unanimously Wednesday night, the New Castle school board went on record as favoring legislation which would permit the school board to collect taxes from the public service corporations operating in New Castle.

The matter was brought to the attention of the board through a letter of John L. Snyder of York, Pa., an official of the League of Third Class Cities and a councilman in York. He urged the board to go on record favoring taxation of the public utilities on the grounds that the utilities did not pay their fair share of the local burden.

The board passed such a resolution and ordered a copy of it sent to Mr. Snyder and also to the legislators representing this county in Harrisburg.

## Cast Is Ready To Give 'Pattie'

Several Hundred To Take Part In Show At Cathedral Tonight

**MATINEE GIVEN THIS AFTERNOON**

Something in the way of a tonic for the eyes and ears is promised for tonight when "Pattie" a musical comedy makes its bow to the people of New Castle at eight fifteen in the Cathedral. Sponsored by the Y. W. C. A. the show has some 700 young men and women of New Castle all of whom have been rehearsing intensively for the past several weeks.

"Pattie" is the story in song and dance of a wealthy young girl who has her eye on a lad by name "Cyclone" Williams actually a champion middleweight boxer but who poses as a business man. In order to get her man "Pattie" impersonate an eleven year old orphan and the entanglements which result from the deceit give you two full hours of music and mirth, hoofing and harmony.

**Capable Leads**  
The leads were chosen with care and among them are the pick of New Castle's amateur theatrical talent. The direction has been that of William Kay Martin a New Castle man now in the professional field and Mr. Martin is satisfied with the cast as it prepares to entertain New Castle tonight.

A school children's matinee was held this afternoon in the Cathedral which was in the nature of a dress rehearsal. The youngsters were admitted at fifteen cents each and apparently got their money's worth judging from the roar of approval that swelled over the footlights.

The crowd tonight will probably be not less than 2000. The ticket reservations have been most satisfactory, the rehearsals indicate a finished performance, and at eight fifteen tonight we all get a look at "Pattie" and her friends.

## Wounded Young Woman Relates Miami Details

Miss Margaret Krus, One Of Wounded In Fusillade At Roosevelt, In Hospital

**WAS SHOT IN BACK OF HEAD**

(We give you herewith the personal story of Margaret Krus, of Newark, N. J., one of those wounded by one of the shots fired at President-Elect Franklin D. Roosevelt at Miami, Fla. Miss Krus received a slight head wound. She is recuperating in a Miami hospital.)

**By MARGARET KRUS**  
Written Exclusively For International News Service (Copyright, 1933, By International News Service)

MIAMI, Fla., Feb. 16.—I was waving to Joe Murphy, one of the secret service men and standing between Governor Roosevelt's car and that of the secret service men when something struck the back of my head.

Almost as I fell to the ground I thought it was one of the photographers flash bulbs as they had been flaring rapidly on the stand just behind and almost above me.

**Visited By Roosevelt**  
Although not unconscious I was very dizzy and can remember but snatches of what occurred until I was placed in this room. I do remember, a man wearing an American Legion cap who placed me in an automobile.

I had planned to leave the hospital after the doctors dressed the wound in my head, but Governor Roosevelt who came to my room shortly after I entered the hospital urged me to stay several days.

They tell me London called last night. I imagine that was my mother who should be in England now.

Despite this sad experience I plan to remain in Miami the remainder of the winter season.

## Get Suspect In Shooting Of Attorney

Police Say Du Bois Identifies Man Taken By Officers

(International News Service)  
CLEARFIELD, Pa., Feb. 16.—The first "break" in the investigation of the mysterious shooting of Lisle D. McCall, prominent DuBois attorney, came today when it was learned that Joseph Butera, of DuBois, was held in the Clearfield county jail as suspect in the shooting.

McCall was wounded by a phantom sniper last Friday night as the attorney was putting his automobile in the garage at his country estate near DuBois. The attorney has been in Maple avenue hospital at DuBois since the shooting.

Butera was taken to the bedside of McCall at the hospital and McCall positively identified the suspect as the assailant, police said.

The arrest was made by state police and county and DuBois officers. A few days after the shooting of McCall, a note was received by Judge A. R. Chase, threatening him with "what McCall got." Judge Chase said at the time he had no suspicion of the note's source.

Butera was acquitted in the Clearfield county court in connection with the slaying of Steve Laffaro in 1927. During the trial, Butera was represented by Charles J. Margiotti, famous criminal lawyer of Punxsutawney.

James Hagan of the city police force, is reported in the sick list.

## Some Men Sent To Pymatuning Soon Get Tired

Commissioners Investigate Complaints On Some Men Sent From Here

SOME LOOK UPON TRIP AS OUTING

Interested Because County Is Furnishing Bus To Haul Them

County Commissioners Elmer Conners, F. O. Elder and F. R. Woods, were at Pymatuning dam Tuesday, making an investigation of reports that some of the men being sent to the dam from Lawrence county, are unsatisfactory. Interest of the commissioners in the matter was due to the fact that during recent weeks the county has been furnishing a bus in which to transport the workers being sent out by R. L. Meermans.

Upon arriving at the dam the commissioners were told that the chief complaint the foremen have with some of the men sent from this county is that they are largely unaccustomed to hard physical work; young men who soon tire of the rigors of the swamp, and hit the trail for home. It was claimed that of thirty men who are usually sent out

on a bus load, only from seven to ten stick until the end of the period they are supposed to stay.

According to the stories told the commissioners some of the men seem to imagine that they are going on a camping expedition. When they find that they are expected to don gun boots, cut brush, chop down trees and burn the brush, some of them soon tire of the job. The commissioners were informed that some of the young men who have been sent have been wholly unaccustomed to doing much manual work.

Foremen claim that they do not drive the men, and do not overwork them, but that they do expect them to do a decent day's work, since they are furnished with good food and comfortable quarters. Not only do some of the men quit the job within a few days, but they come back to New Castle, with exaggerated stories of the hardships they are expected to endure, it is charged. More fault was found with the men from Lawrence than from any other county.

The commissioners stated this morning that they believe that more care should be exercised in selecting the men who are to go to the swamp. There are plenty of able bodied men who would be able to do the work, and who would be glad of the chance, they say. The commissioners have plenty of men who apply for relief who would make good workers at the swamp, but they do not have the authority to select them. They say that they are willing to provide the bus if men are sent who will stick on the job, but they do not purpose to furnish transportation, that merely means an outing.

Those in charge of the work at the swamp did not know that the commissioners were coming. They kept their visit a secret in order that they might drop in on the camp for dinner to see what the men actually had to eat. All three of the commissioners agreed that the food was plentiful and well cooked. They found about 250 men at work.

Foremen told the commissioners that they had no complaint to make of some of the men sent from New Castle. They found a certain percentage able and willing to work. These men remain for the full time and many of them desire to remain as long as they can.

If the Filipinos didn't produce sugar and other farm products we are very doubtful whether they would have gotten any kind of an independence bill through congress.

## Marjorie Shuler Says Depression Has Good Points

National Figure Who Will Be Here Next Tuesday Comments On Depression

There are people who can be optimistic even over economic depression. Miss Marjorie Shuler of New York City, publicity chairman for the National Federation of Business and Professional Women's club, is one of them.

Miss Shuler, who will be in New Castle next Tuesday to address the local business women's organization at its annual banquet in The Castle-ton, refers to the depression as follows in a recent message to the local club president:

"I can see concrete gain from it. It has brought back to American home. During the years of prosperity the home became merely a way station where the members of the family waited between their important engagements elsewhere. But in the days of adversity people have drawn closer and there is a revival of the old, wholesome family spirit."

"Thinking richly for ourselves and for others" is recommended by Miss Shuler as an antidote for depression.

## ECONOMIC PARALYSIS

We usually think of the foreign and the untold story is the AMERICAN BORN, ENLIGHTENED CITIZEN, with money, who is creating our economic paralysis by hoarding.

Fear has caused people to withdraw over one and one-quarter billions of dollars from circulation. This represents one-fourth of the nation's gold reserve. This hoarding has destroyed over ten billions of potential credits needed for financing business and maintaining employment. Continued hoarding will undermine the fundamental foundations of our business institutions. If you have money not in circulation deposit it in some bank or—lend it on a mortgage, or spend it on permanent improvements; in other words, use it in some constructive way rather than have it rot in a tin box or under a mattress to the ultimate damage or possible destruction of our community and business organizations. This association does not hoard its money, but keeps it working for the upbuilding of the community by lending it on first mortgage security on homes.

## New Castle To Play Ellwood Friday Night

New Castle High Basketball Team Will Have Ellwood As Opponents

### NEED VICTORY TO STAY AT THE TOP

New Castle High School basketball team will play Ellwood City High at the George Washington Junior High gym Friday night, it was announced today by Faculty Manager Ralph H. Gardner. The reserves of both schools will play the preliminary game starting at 7:15 o'clock. This is a Section Three game and New Castle needs the victory to stay at the top of the league along with Butler High.

At Ellwood City earlier in the year New Castle won, and Coach Bridenbaugh will have a tough time to keep the New Castle team from becoming over-confident. Against Butler High here the New Castle team thought that they had something easy, and the result—Butler won.

Lineup Stands  
New Castle played a real brand of basketball at Beaver Falls, they were in that game fighting for all they were worth. New Castle won, and from a good team. No over-confidence against Beaver Falls, just a dogged determination and it should be that way Friday night against Ellwood City, and most certainly the boys should feel that fighting urge against Butler High next week.

The combination that Coach Bridenbaugh started against the Heckathornmen last Tuesday night will be the one that will be used in the Ellwood City game. Joe Kelly is showing improvement at center, and Battley and Teplica are handling the forwards jobs in fine shape with Captain Reiber and Komine at the guards and doing yeoman duty guarding the hoops. Ellwood City has not won a league game yet but there is no telling when they will shake that jinx. Other games Friday will find Butler at Beaver Falls, and New Brighton at Rochester.

## Detroit Tigers Are Weak Team

Detroit Banking On Pitching Staff To Carry Through Tough Season

### RIGHT SIDE OF INFIELD IS GOOD

By PAT ROBINSON  
International News Service Staff Correspondent  
NEW YORK, Feb. 16.—Detroit Tigers is a misnomer. Tame table would fit them better this year. If one were to pick out the team least likely to show improvement at over last year, one would unhesitatingly name Detroit.

The pitching is fair, the infield is fair, the outfield is fair. It's just a fair ball club any way you take it. It is a club that looks better on paper than it does on the ball field. Pitchers Just Fair  
Take a look at the pitchers, Tom Bridges, George Uhl, Wyatt, Vic Sorrel and George Marberry. They're all fair—but not good.

The right side of the infield is fine. Harry Davis is undoubtedly the best fielding first baseman in the game and Gehring beside him is a good hitter.

The outfield could stand plenty of bolstering. Jack Stone, Gerald Walker and Earl Webb rate only so-so among the outfielders.

Heyworth is an improving catcher and this season should take rank with Bill Dickey of the Yankees and Mickey Cochrane of the Athletics.

## St. Marys Varsity Will Have Fast Youngstown Five As Opponents

St. Marys varsity basketball team will have the strong Youngstown Bulchys as their opponents tonight at the St. Marys floor, corner of Beaver and North streets. The game will start at 7:45 o'clock with the St. Marys Reserves tangling with a fast quintet.

The Youngstowners are coming here tonight with one of the best teams in northeastern Ohio and hope to take the measure of the Fraser coached machine. The Saints have a very impressive record to date and do not intend to let the Ohio boys spoil it.

The Youngstown team is composed of former high school stars and they have not been defeated this year. The Saints will use their strongest lineup in an effort to snatch the victory.

## Three Church League Games

Three games will be played in the Church Basketball league at the Y. M. C. A. tonight.  
The First Christian will tackle Temple Israel in the first game. They are B division teams.  
In the second encounter Sacred Hearts and Mahoning Presbyterian will clash also in a B setto.  
The lone A division game will result in a meeting between First Baptist and Sacred Hearts.

## Garden Willing To Let Johnston Operate Fights

Recent Carnera-Schaaf Fatality Causes Garden Officials To Lose Heart

### CARNERA CANNOT MEET SMALL MEN

By DAVID J. WALSH  
International News Service Sports Editor  
NEW YORK, Feb. 16.—Madison Square Garden may sub-let its share of the random unhappiness and heartbreak that not only goes with boxing, but seems to stay with it.

Already weakening on the business as a source of artistic and economic comfort, even before recent events cast grim shadows across the situation, it has been sickened by the Schaaf tragedy and is more than willing, at least at this time, to let somebody else buy into what suffering it now may have left over from the last few days.

This will be done, if at all, somewhat on a concession basis, not necessarily to the highest bidder but to the most worthy. The latter could be nobody else but James J. Johnston. As a possible bidder, he holds a contract, calling for him to work for and take money from Madison Square Garden, which is liable to make all others automatically unworthy and, in fact, superfluous and nonexistent.

Must Be More Even.  
The shocked and distraught directorate at the Garden, in fact, would prefer to shift the problem and all of its local aspects to Mr. Johnston, the well known smoother-outter of local problems. The only thing they do not wish to shift is a goodly share of the receipts.

At the moment, the fight cannot be held here, owing to the fact that William Muldoon has decided that Carnera may fight only men standing at least 6 feet 2 inches in height and weighing no less than 220 pounds. But at the moment the new chairman of the boxing commission has not been named and won't be for two weeks.

I happen to suspect that, when he takes charge, anything that William Muldoon may have done in connection with heavyweight boxing can be undone with a minimum of annoyance to all concerned.

## Union Continues To Hold Lead In Sectional Race

Evans City High In Second Place And Threatening Leaders Today

Union high school basketball team continues to reign supreme in Section 18 of the W. P. I. A. L. with Evans City high knocking at the front door. Union has won six and lost two. Evans City has won five and lost three.

Evans City must defeat Zellenople tomorrow night at the latter's floor to stay in the running. Union will be idle as the game with Mars has been cancelled until later. Mars and Evans City will tangle at Evans City on February 21, which makes two tough games for the contenders, while Union will engage Mars and Karns City in their two final games. Evans City put Karns City out of the picture last Tuesday by a 30 to 14 defeat.

Following is the standing of the Section 18 race including games played Tuesday night:

	W.	L.	Pct.
Union High	6	2	.750
Evans City	5	3	.625
Karns City	4	4	.500
Zellenople	4	4	.500
Mars	4	4	.500
Slippery Rock	1	7	.125

## Sullivan Lambasted By Jim Corbett In New Orleans Bout

Heavyweight Champion Mass Of Cuts And Bruises, Corbett Is Unscathed

Sullivan Recognized Corbett's Tremendous Hitting Power In 21st Round

(Owing to the critical nature of James J. Corbett's illness, a review of the big moments in the career of the great heavyweight champion of other days is especially timely now. Following is the description of the 21st and final round of Corbett's greatest triumph, over John L. Sullivan, by an eyewitness, T. T. Williams.)

By T. T. WILLIAMS  
(Copyright, 1933, by International News Service)  
In the 21st round of the memorable heavyweight battle between James J. Corbett and John L. Sullivan at New Orleans on September 7, 1892, something happened that broke half the sporting men in America.

Sullivan, who was having the first hard fight of his life, had only a sore face to show for his boast that he would smash the challenger through the ropes inside of five rounds. There was not a mark on Corbett save a patch of red on his shoulder from Sullivan's wrists, while the great John L. actually was groggy.

Corbett thought it was time to show he was a real fighter. The tall young man in gray trunks unlimbered himself and went at the

body attack and fought at long range. Few boys who have appeared here could hold Willie even at this style and he forced Frisco to miss many times.

## Frisco Floored Davies Johnny Jennings Drops Brannigan's Protege in Third But Dropped Decision

Frisco Grande, Filipino, gave Willie Davies, fistic marvel of Charleroi, one of his greatest fights here. They battled on the night of March 4, 1929. Grande won the first and fourth rounds. Davies captured the fifth, sixth, eighth and ninth. The rest were even. The Filipino floored Willie with a left hook to the stomach in the fourth round. Both Judges, Dugan and Dunn, gave the award to Davies.

According to a study of the fight account, Grande made a great showing in the early portion of the fight. As the battle neared its end he changed from his spectacular attack to the body for a campaign at long range. He fared badly.

While the knockdown of Davies caused fans to yell loudly the fight also had its earmarks of excitement as the Filipino put a long right to Willie's chin that caused him to stagger. Davies came back like a flash with a good right to Grande's chin.  
Filipino Jarred.  
They went into a clinch and Davies wrestled Grande to the floor. He got up to run into a right to his jaw that almost floored the Filipino. Up to the eighth round Grande had won two rounds and Davies had taken an equal number. The balance were even.  
Grande abandoned his rushing

## Titans Face Glenville At Home Friday

Great West Virginia Five Will Invade New Wilmington Tomorrow

(Special To The News  
NEW WILMINGTON, Pa., Feb. 16.—Glenville State Teachers' College great basketball team will not find Westminster in any altruistic frame of mind here Friday night when the two teams meet in a feature game. The Titans, still smarting from the defeat suffered Tuesday night at the hands of the championship-bound Geneva team, will be in the game to salvage the season from mediocrity.

So far Westminster has won 12 games and lost five. Tomorrow night's game, which will attract a large crowd, is the second-last home contest for the Titans. Next week Coach Lawther's men take a trip to Bethany and Waynesburg for hard contests, and the following week go on a four-game trip through the east, playing in Scranton, Long Island, Jersey City and Brooklyn.

Local fans are looking forward with interest to the Glenville game because the Titans are said to sport a team as large and good as last year's great Westminster team. Frank Vass, rangy center from Beckley, West Virginia, is one of a quartet of veteran stars who will be watched closely. Dorsey Hines and Harold Burke, two other seniors, are also touted to be among the best in these parts.

Lawther will use Wes Bennett at center, Douglass and Newton at forward and Hunneke and Wilhelm at guard. The fact that Bennett will be at the pivot post will strengthen the Titan outfit considerably. Many fans claim that the Titans would have been a strong title contender this year had Bennett been used.

The only other home contest on the Titan card is the final game of the season with Grove City on March 7. As a result, local fans will be on hand tomorrow to see Glenville and with hopes of seeing a return to the victory column for Coach Lawther's scrappy outfit.

## New Brighton Plays Wampum

Clash Tonight For Tony Monaco Who Broke Wrist Recently

INVADERS HOLD ONE GAME LEAD

New Brighton Merchants and the Merchants of Wampum will meet in a basketball game, Thursday night at Wampum. Rivalry is keen, the teams are well matched and it is anticipated a good crowd will witness the floor game. It will be a benefit for Tony Monaco who unfortunately sustained a fracture of a wrist during an early season game.

Monaco is a former New Castle high school football and basketball star. Later he played basketball and baseball at Slippery Rock Teachers college and participated in athletics after he returned to Wampum.

Inasmuch as the New Brighton team holds one game over Wampum Merchants, the latter will be keyed up to their best form for Thursday night's game.

## New York State May Outlaw All Boxing Contests

Death Of Schaaf May Cause Outlawing Of Boxing In Empire State

(International News Service)  
ALBANY, Feb. 16.—Legislative friends of boxing, convinced the sport faces a serious threat of being outlawed in this state as a result of the death of Ernie Schaaf, today rushed to its defense.  
There are enough votes in sight to bring about repeal of the Walker boxing law. Because of this several New York city legislators, anxious to save the sport, are suggesting amendment but not repeal of the law.

(International News Service)  
WRENTHAM, Mass., Feb. 16.—In the little white house he built for his mother out of his first ring earnings, the body of Ernie Schaaf, the "blond vikings" lay amid a bank of flowers today, while crowds of former admirers paid final tribute to a good fighter and a "great guy." A sailor's tribute will be paid to Schaaf, the "fighting gob" at his funeral tomorrow. Following a solemn requiem mass in St. Mary's church, the body will be buried in St. Mary's cemetery, Foxboro.  
Complained in 1929  
CHICAGO, Feb. 16.—On the eve of his battle with Willie Strubling in February, 1929, Ernie Schaaf received treatment for a spastic muscular condition, Dr. John S. Coulter, expert in physical therapy, disclosed today.

"He complained of the muscle being stiff in one arm" the physician explained. "I think in view of what happened in New York he was getting the beginning of some brain irritation."

## Ends DANDRUFF Overnight!

There is one sure way that never fails to remove dandruff completely, and that is to dissolve it. This destroys it entirely. To do this, just get plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.  
By morning, most if not all of your dandruff will be gone, and two or three more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.  
You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.  
You can get liquid arvon at any drug store. It won't cost you more than thirty-five cents (35c). This simple remedy never fails.

## Warren Y Wins Mat Meet Here

Miller Downs N. George And Gennock Throws Hillman

### BROOKS WINS OVER DE MARCO OF WARREN

New Castle Y last night was downed by Warren Y in a wrestling meet at the local institution. The invading grapplers won four of six matches on the mat and took two via forfeit when the local Y had no opponent for the 155 pound and heavyweight gridders from Warren. One of the upsets was the defeat of Nick George of this city by De Marco of Warren and the most exciting match was won by Gennock, New Castle from Hillman of Warren in the 135 pound class.

It took Miller five minutes and 48 seconds to pin Nick George's trowsers to the mat. He turned the trick with a half-Nelson and a body hold. It was a gruelling match while it lasted.  
The Gennock-Hillman match was filled with action and when Gennock used a body slam to pin Hillman's shoulders to the mat the fall rendered Hillman unconscious for a brief space of time.

For eight minutes they wrestled and it was called a draw, as Gennock had only 42 seconds time advantage. When they came back to the mat he downed Hillman in 14 seconds.

Wins Exhibition  
In an exhibition Joe George won from Nader of Warren at 135 pounds. It took him only two minutes of fast work to score a fall.

The results:  
145 lb. class—Miller, Warren, defeated N. George, New Castle with half-Nelson and body hold, 5:48.  
120 lb. class—Brooks, New Castle, defeated De Marco, Warren, 4 minutes time advantage.

125 lb. class—Gennock, Warren, defeated Cartwright, New Castle, 5 minute time advantage.  
135 lb. class—Gennock, New Castle, defeated Hillman, Warren, with body slam, 8:14.

165 lb. class—Majic, Warren, defeated W. Adams, New Castle, with body hold, 3:10.  
175 lb. class—Philkorn, Warren, defeated Fabian, New Castle, with body hold 6 minutes.

New Castle forfeited 155 pound and heavyweight bout to Warren, not having any opponent.

## Grove City To Play Geneva On Friday Night

GROVE CITY, Feb. 16.—Skull practice, and a brief shooting drill was the limit of work prescribed by Coach Bob Thorn in preparation for Grove City's biggest home game Friday evening—the annual invasion of Ken Loeffler's Geneva club. The Crimson men's figures that rest is more important than the two days intervening between the strenuous game with Duquesne and the visit of Geneva, undefeated in the Tri-State conference.

Since early in January, Coach Thorn has been pointing his squad for Geneva. The Covenanters, with six consecutive victories in the conference schedule, have defeated every other team except Grove City and Bethany, and if the record is to be marred, it will be up to Grove City to do it. The teams meet here Friday, and Monday at Beaver Falls, in games which will practically decide the league championship.

## Ryantown Team To Meet Friday

Ryantown baseball team will hold an important meeting Friday night at 806 West Grant street. The meeting has been called for 8 o'clock. Plans for the coming baseball season will be discussed. It is urged that all who wish to try out for the team this year report at the meeting.

The following are asked to report at the meeting: Severs, Maher, Her no, Calls, Hartman, Kerr, Wochner, Seward, Critchlow, Davies, Gunnnett, Hill, Todd and Bunnell.

Early Stock Market  
Trading Today

(International News Service)  
NEW YORK, Feb. 16.—The stock market suffered its third successive decline today as the attempted assassination of President-Elect Roosevelt further depressed speculative sentiment, unsettled by the Michigan banking holiday.

A break in the rails in the second hour fed the reaction tendency and losses ran from 1 to more than 4 points.

Texas Gulf Sulphur was the weakest issue, slumping more than 4 points on the unexpected halving of its dividend.

A break in Union Pacific was the signal for general selling and losses in this group ran to nearly 3 points.

Leading stocks went down with the rest. American Telephone broke par despite yesterday's declaration of the regular dividend. Allied Chemical was under further pressure while the steels were heavy.

Tobacco stocks continued to show liquidation with losses running to a point. A rally in Consolidated Gas on short covering was ignored by the other utility stocks, which displayed a heavy tone.

SCHOOL BOARD CUTS  
TAX LEVY 5 MILLS

BEAVER, Feb. 16.—The Beaver school board has adopted a budget for 1933-34 that will permit the levying of a 16 mill tax. This will be a reduction of five mills from the levy of last year and nine mills less than the levy in effect in 1931. Members of the board announce a 36 percent reduction in taxes during the past two years.

A lot of the Democratic political writers who are now frantic in their criticism of Huey Long's filibuster used to think it was a great joke when a senator would filibuster against a Republican measure.

Sometimes we wonder how much more congress could soak us if it wasn't being economical.

Florida Will

Under State Laws  
Says OfficialFEDERAL AID  
TO BE PROVIDED

(International News Service)  
WASHINGTON, Feb. 16.—There will be no federal prosecution of Giuseppe Zangara, the would-be assassin of President-elect Roosevelt, Attorney General Mitchell announced today.

The department explained there is no federal statute governing assaults of attempted assaults on a federal officer or president-elect, as these offenses are covered by state laws.

Mitchell declared that the federal government has complete confidence in the "disposition and ability" of the Florida state authorities to conduct Zangara's prosecution.

Agents of the U. S. bureau of investigation were instructed by J. Edgar Hoover, the bureau chief, to get in touch with the Florida authorities at once and give all possible assistance and cooperation in the investigation.

The attorney general received his first official report of the case by long distance telephone today. The report said that Zangara was 33 years old, that he was born in Italy, that he came to the United States in 1923 and resided at Paterson, N. J., until the time he went to Miami a month ago. Zangara claims that he was naturalized at Paterson in 1926.

The man's story was to the effect that he had been without work except small jobs occasionally in Paterson since 1926. He said he had saved \$2,500 when he had worked and that the money had lasted until now. He said he went to Miami because it was warm.
